

“A Birds Journey”

- Have you seen a bird up close?
- Have you heard a bird’s heart beat?
- What are different bird species doing?

Join a Crater Lake ranger and experts from the Klamath Bird Observatory for a 45 min to 1.5 hour program to see a public bird banding demonstration and learn:

1. The role birds play in our ecosystems
2. Why bird banding is important
3. How a banding station operates
4. How scientist look at bird feathers to answer questions about a bird’s life

2018 Dates	Time
Thursday, June 28 July 5, 12, 26	6:30 am
Thursday, August 2, 16, 23	7:00 am
Thursday, Sept 6, 13	7:30 am
Thursday, Sept 20, 27	7:45 am

Please register in person with a Ranger at the Steel Visitor Center or call (541) 594-3100. **Registration is Free** – 20 person maximum for each date.

Klamath Bird Observatory offers banding demonstrations at its Upper Klamath Lake Field Station near Fort Klamath. For more information and to arrange a visit contact Bob Frey at bif@klamathbird.org or (541) 621-5690.
